COURSE DETAILS

Spirituality of Self-Esteem (For full-time participants only)

We believe that Jesus invites us to live by the creative word that God speaks to us about ourselves (see Matthew 4:4). Sadly we know that we can also harbour in our hearts the destructive words that others have spoken to us about ourselves. As we begin our sabbatical journey we focus afresh on how God sees us. Our spirituality is nourished by God's word which inspires true self-esteem. In this first week we will explore what it means to live by God's creative word.

Transitions - Transforming my life experience

During the week we look at our emotional and spiritual journeys. Marina believes Mind, Body and Spirit need to be in balance in order for our lives to flourish. During this week we can check that balance and rectify any imbalance.

Ministry of Healing in the Church Today

During this week, Fr. Jim McManus, who has written several books on the healing ministry, including *The Healing Power of the Sacraments* and *Healing in the Spirit*, will explore what Cardinal Yves Congar OP called "the rediscovery of this forgotten form of ministry" in our time.

Catholic Moral Reasoning: Living the Gospel Today

This week will be spent in raising awareness of our moral reasoning, as individuals and communities. We will then see how Catholic moral thought deals with challenging and controversial issues in sexuality, medical ethics, care of the dying, and social justice.

Jonah and Jesus

Jesus compared himself to only one prophet: Jonah. We look at Jonah's struggle to find himself, to discover his true direction in life, to move towards a more generous outlook on life. We then look at Jesus' beginning in Mark's Gospel: leaving home, meeting John the Baptist and making a fundamental shift in his life. Will his own people accept his new identity, new direction and new outlook? We look at how these key characteristics - identity, direction, outlook - affect the story of our own discipleship.

'Go, rebuild my Church': The vision of Pope Francis for the future of the Church in the 21st Century (Summer Sabbatical Course only)

On 13 March 2013 Cardinal Jorge Mario Bergoglio was elected Pope. He chose the name Francis (the first Pope to have chosen this name) in honour of St Francis of Assisi. St Francis of Assisi was entrusted by God with the mission: 'Go, rebuild my church'. Since his election, Pope Francis has made this his mission too, as he seeks with energy and enthusiasm to implement dynamic renewal within the life of the Church. This week will explore the theological foundations underlying Pope Francis' call for renewal, keeping in mind his words from *The Joy of the Gospel* "Changing structures without generating new convictions and attitudes will only ensure that those same structures will eventually become corrupt, oppressive, ineffectual." (E.G. 189)

The Theology of Pope Francis and Ecology (Autumn Sabbatical Course only)

Fr Sean McDonagh will cover aspects of ecology and theology. These include climate change, the destruction of biodiversity, humans' impact on the oceans and fresh water and the waste and destruction which flows from our throw away society. He will be presenting concrete ways to combat these challenges. He will also speak on spirituality and ecology from the perspective of Catholic theology as outlined in Pope Francis' encyclical *Laudato Si'*.
